

PAGADALA HEMANTH

Highly motivated Full Stack Developer with 1 year of experience building responsive, high-performance web applications using React, Node.js, TypeScript, and PostgreSQL. Proven ability to create interactive user interfaces and reliable backends, ensuring smooth user experiences. Dedicated to writing efficient, maintainable code that adheres to modern web standards.

Work Experience

Full Stack Software Developer

Jan 2024 - Present

- Developed responsive web applications using React and TypeScript, creating intuitive and engaging user interfaces
- Built and maintained robust backend systems with Node.js and PostgreSQL, ensuring seamless data integration and high performance.
- Implemented RESTful APIs to optimize data flow and communication between frontend and backend.
- Improved application performance by identifying and resolving bottlenecks, optimizing queries, and implementing caching strategies.
- Maintained code quality and adherence to TypeScript best practices, including strict typing and modular code organization.
- Utilized Git for version control and actively participated in code reviews to enhance team collaboration and maintain coding standards.
